

The Town of Lima Highway Department

Planned work for 2019

The Town Highway Department plans to oil and stone The southern 1 mile on Doran Road, the northern 1 Mile of clay street, all of Martin Road, Slocum Road and Rexon St. Our paving project will be on the Western portion of Corby Road.

The Highway Department will also have its annual clean up in May at the Highway garage on the 3'rd and 4'th. As we constantly try to update culverts a various number of them will be replaced also depending on their condition. As usual we will also have roadside mowing, county work, extra work at the park as time allows, and cemetery mowing. Work will continue on our sidewalk project on Rochester Street as time allows.

As always please slow down for our workers and jobsites. Safety is always a priority. Thank you for your patience.

Keith Arner, Town Highway Superintendent 585-1443.
