Lima Historical Society

Falk mentioned that the current contract needs to be reworded as the contract does not state that shelving or insurance be reimbursed however they are requesting payment for same. Falk also stated the Town should not be reviewing the Historical Societies bills as they are a private nonprofit organization. Discussion was held as to whether the Town should request a copy of their books and complete an audit. This question will be turned over to Attorney Campbell. Councilperson Marcellus suggested we get a list from the Historical Society listing accomplishments they have completed throughout the year. Councilperson Gardner made a motion to reimburse the Historical Society this time, amending the current contract as it does not state shelving or insurance to be paid. She also suggested the Town continue to view receipts to give the Town validation as to how the money is being spent appropriately and to have Attorney Campbell review the contract. Councilperson Gardner also commented the Historical Society is an organization that is minimally staffed and struggling to exist. She mentioned they are maintaining an incredible archive of records for the Lima Community which is over 200 years old and if they are not able to function would go to the State Historical Society or the Town could take it over and could possibly be less assessable to Lima residents. She went on to say with limited resources they have now they are trying to embark on a digitization project so that they can make more of the photographs, family histories, etc., available online and that the balance is to be expended in the first year of 2019 for the purchase of a computer and software, seconded by Councilperson Mayer the vote went as follows:

It was agreed on motion by Councilperson Gardner to approve and reimburse the Historical Society for shelving material and remaining balance budgeted to the Historical Society go to the computer and software, seconded by Councilperson Mayer, the vote went as follows:
