Mayor Luft informed the Board that it has been over 20 years since the water tower has been painted and that the fees would be roughly \$400,000 with the Town being responsible for 11.87% of those costs. Mayor Luft went on to say that the inside of the water tower is inspected every 5 to 7 years and that has recently been completed and is in good shape. Mayor Luft mentioned the legs will also need replacing at some point. Lastly, equipment in the pump house will also need replacing. Mayor Luft said replacements/updates will be completed this year as well if the Village of Lima is awarded grant monies. If not, the updates will be completed next year.

Supervisor Yendell informed the board that he has a resident that needs to complete 80 hours of community service and will also speak to this individual to see what projects he can complete. Further discussion will be held once the list of responsibilities is broken down.

Councilperson Gardner asked that a light be put up for the flag or be taken down until same can be completed. Town Highway Superintendent Arner said he and his crew will complete this project.
